

# Juno® Trac-Master® WarmDim® LED Track Fixture

## See the warmth

This Juno Trac-Master® WarmDim® LED sample case features a T381L WD track fixture, along with a convenient dimmer module and additional interchangeable media cartridges representing all four beam spreads, helping you showcase the new WarmDim track series.

Contents are stored in a convenient, easy-to-carry shoulder bag that includes:

- A** **T381L G2 WDIM HALR 90CRI PDIM FL BL** (1195lm) WD track fixtures (3000K-1800K) in black finish with **Flood** diffusing film.
- B** **T42N BL** black weighted base with cord & plug
- C** Field-interchangeable media cartridges with micro-optic diffusing films: **Spot, Narrow Flood, Wide Flood**. Media cartridges are labeled with SP, FL, and WFL for easy distribution identification during demonstration.
- D** Dimmer module with input & output cord & plug assemblies. Input plugs into a wall outlet for 120V power input; output accepts weighted base cord & plug to demonstrate dimming control of WarmDim fixture.

Sample Case CI Code: \*279Y2V | Catalog Number: SS-JUNOTRAC-WDIM
